

A Program of Washington County Health Partners

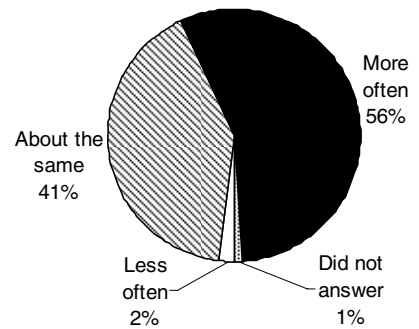

## Smoke-free Restaurant Survey Receives High Marks

In February of 2004, Washington County teens participated in a survey of a new smoke-free restaurant in Washington County during its Grand Opening. Over one hundred patrons were surveyed. Here's what they said:

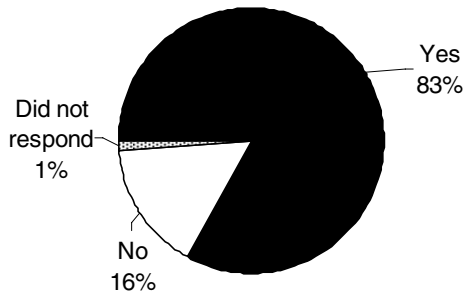

All other things being equal, how important is it to you that restaurants are smoke-free?

Because this restaurant is smoke-free, will you come back:

Are you concerned about the health effects of second hand smoke?

Do you currently use tobacco products?
